Summer learning loss puts students at a serious disadvantage. This is when skills and knowledge are lost over the summer months, causing students to move backwards instead of progressing.

By spending just **minutes a day** with *Summer Solutions*, students get the practice they need to keep moving forward. It was designed to help students return to school after summer break confident in the skills they've already learned and ready to master new ones.

Your child worked hard all year. Make sure that progress sticks. Give your child the advantage of *Summer Solutions*.
